I couldn't remember if I sent this or not. These are sites TCEQ wants the Water Assessment folks to focus on and get a status of operation.

Ronnie

Chris,

Here's a list of 88 CWS site's with no operational status. Please coordinate through Area Command to have the Branch UCs determine the Operational status of these sites. Some we may be able determine by phone at this time, others may require another site visit. Three facilities appear to have not been called or visited. Thanks.
